

Next-Gen Service Center Management Software

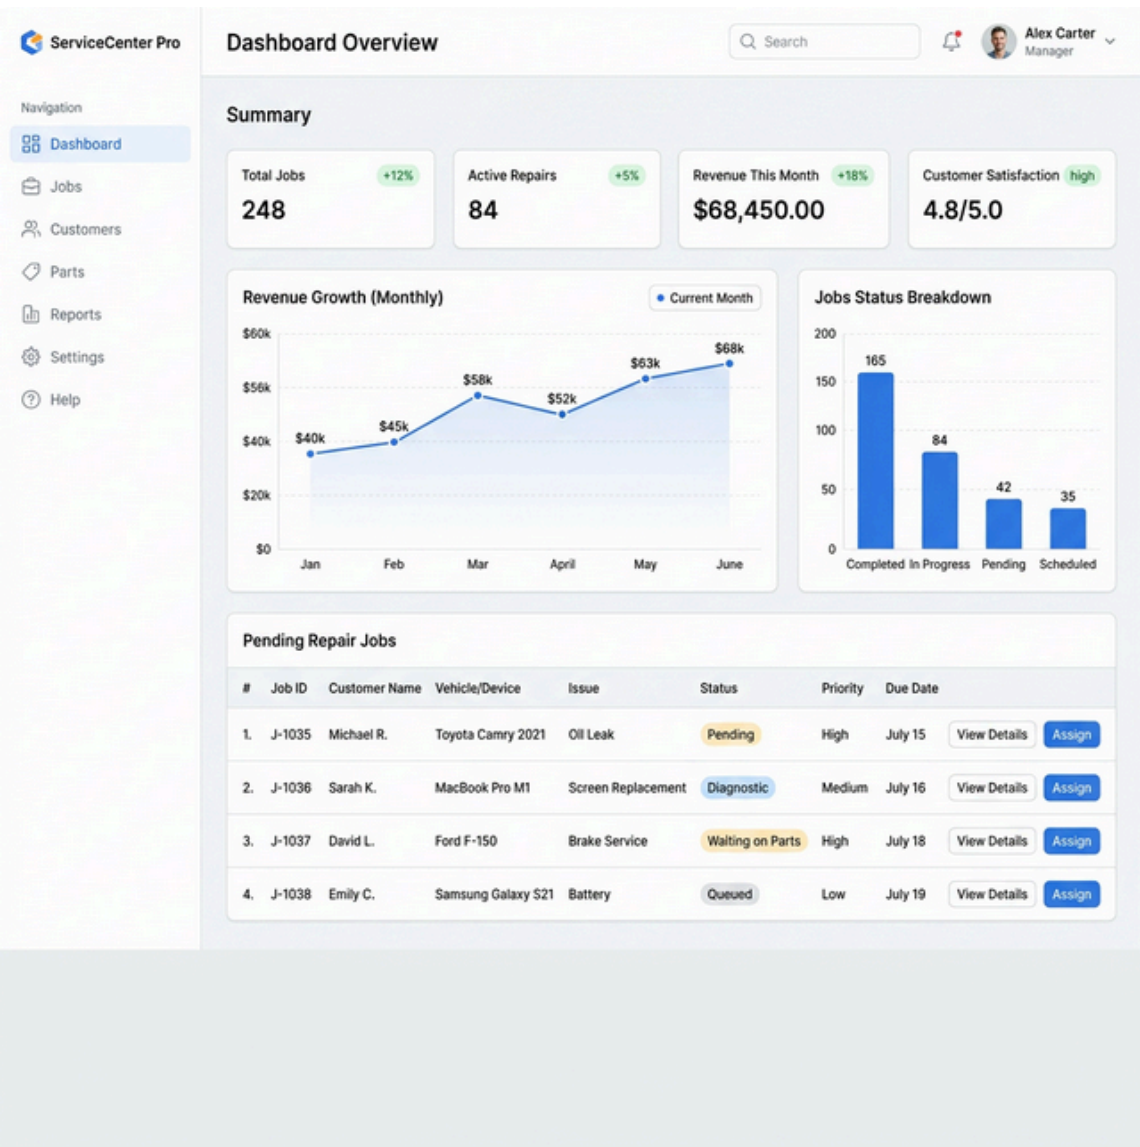

Stop managing chaos. Start managing growth.

Are you still relying on paper job cards, scattered Excel sheets, and constant phone calls to run your repair business? Our all-in-one Service Center Management platform gives you complete control over your operations, from the moment a device enters your shop to final billing.

See It In Action

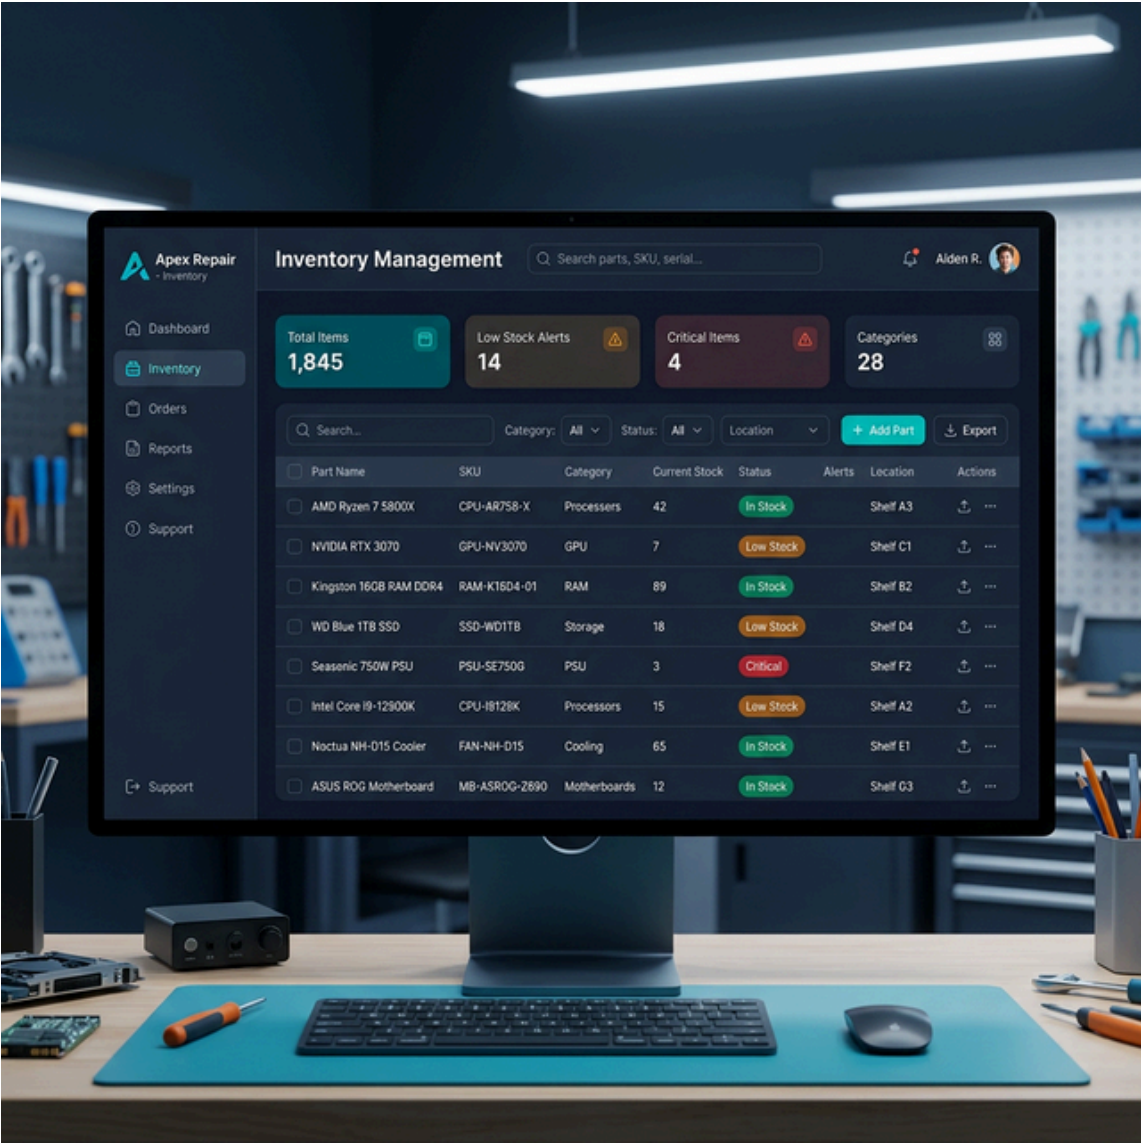

1. The Executive Dashboard

Gain total visibility into your business. Track daily revenue, pending jobs, and technician workload across all your branches at a glance.

2. Airtight Inventory Control

Never worry about missing parts. Our system automatically updates stock levels when parts are used in a repair or sold directly.

3. Professional GST Invoicing

Generate beautiful, fully compliant GST invoices in seconds with automated multi-tax (CGST/SGST/IGST) calculations.

⚡ Core Features That Drive ROI

1. Smart Job Card Management

- Create digital job cards with pre-intake device photos and condition reports.
- Track real-time progress: *Received* → *Diagnosis* → *Under Repair* → *Ready*.
- Customers receive automated WhatsApp/SMS updates at every stage.

2. Zero-Leakage Inventory

- Track parts across multiple branches centrally.
- Receive low-stock alerts *before* you run out of essential items.
- Full audit history ensures 100% accountability for every spare part.

3. Comprehensive Billing & Payments

- One-click conversion from Job Card to final Invoice.
- Support for advance payments, partial payments, and multiple payment modes (UPI, Cash, Card).

- Print professional, branded PDFs instantly.

4. Advanced Security & Trust

- **OTP-Based Delivery:** Ensure the device is only handed back to the rightful owner.
- **Secure Password Vault:** Log and protect customer device passwords.
- **Role-Based Access:** Give receptionists, technicians, and managers only the access they need.

The Business Value

*[!TIP] **Why businesses switch to us:** A typical service center loses thousands of rupees monthly to unbilled parts, lost productivity, and manual invoicing errors. Our platform plugs these holes immediately.*

Feature Area	Your Current Reality	With Our Software
Customer Support	"Hello sir, laptop kab milega?"	Automated SMS limits incoming query calls by 80%.
Billing	10 minutes spent calculating GST manually.	< 2 minutes to generate a perfect PDF invoice.
Inventory	Manual end-of-day stock counting.	Real-time, auto-deducting stock levels.
Multi-Branch	Driving between shops to check progress.	Live cloud dashboard accessible from your phone.
